Science & Creativity

Elevator Pitch:

An award winning designer and front-end developer with a passion for telling stories. His ability to combine the creative with the technical has afforded him the opportunity to work with a diverse range of clients; from the New York Times and Google to The Ford Foundation and Inc. Magazine.

Specialising in web-based media for over eight years, Simon is able to bridge the gap between design and development; creating both unique and informed solutions that sympathise with the user's experience (*UX/UI*) and maintain the validity of core information (*IA*).

Software / Languages:

Adobe Creative Suite, Coda/2, MAMP Pro, Xcode, xScope, WordPress, Unity, Git, Vim, HTML/5, CSS/3, AJAX, RESTful API's/JSON JavaScript & jQuery.

Qualifications / Awards:

BA (Hons.) Graphic Design

Falmouth University
2006 - 2009

BTEC (ND.) Multimedia
